Compacted crusher dust pathway for easy of access.

Modular Picket Fence

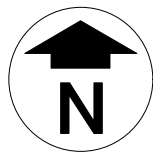

Trailhead Signboard/Book Exchange

Wayfinding Post

Planter Pinic Table

Planter Bike Stand

Metal hoops added to side of planter box to create a convenient and secure method of stowing bike while stopping on trail.

Trailhead Information Booth/Book Exchange

Constructed from treated pine/plywood this information booth features a living roof, laser etched map of the area, community notice board and book exchange.

Riverlution Signage

Plywood or metal lettering attached to a metal rail that undulates to mimic the Otakaro/Avon River.
(Please note this signage concept is not included in the current project scope)
